1. This action is in response to the amendment received on February 11, 2005.

Claims 1-20 are pending.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. In the claims:

A) In claim 2,

1. in line 3, deleted "by".

4. The above examiners amendment was necessary in order to place this application in condition for allowance. The amendment was needed because the word "by" at the end of the claim made the claim unclear as to whether it was complete. It is believed that applicant intended to delete the word "by" in view of applicant's amendments to the claim. The examiner's amendment does not change the scope of the claim. If applicant does not agree with the changes made by the examiner, the examiner will enter a 312 amendment for correcting the above problems.

5. The following is an examiner's statement of reasons for allowance:

The claimed invention is allowable over the art of record in view of applicant's arguments on pages 7-9 of the amendment that clock 26 and clock 46 of Coppola et al are not real-time clocks and the system does not obtain real-time information from these clocks as claimed in independent claims 1 and 11 even in view of Coppola's disclosure that internal clock 26 maintains real time (col. 5, line

51), that clock 46 is an external real time clock (col. 5, line 63) and their definition of "real time" at col. 5, lines 65-68.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
